**SUBJECT:** Sugar Beet Crop Insurance Provisions – Comment Period for Final Rule

**BACKGROUND:**

The Risk Management Agency (RMA) is amending the Sugar Beet Crop Insurance Provisions via final rule with request for comments. The final rule with request for comment published in the Federal Register on September 10, 2018. The intended effect of this action is to update the policy to better reflect current agricultural practices. The following policy modifications were made to the Sugar Beet Crop Insurance Provisions:

- Changed the definition to use pounds of raw sugar instead of standardized tons of sugar beets.
- Removed stage guarantees.
- Added an early harvest factor to prevent a decline in the producer's future insurable yield by increasing the yield recognized for that year's harvest.
- Moved "end of insurance period" dates to the actuarial documents.
- Updated several definitions to align with the Common Crop Insurance Policy, Basic Provisions and terms defined in other crop policies.

RMA will accept written comments on this final rule until close of business October 10, 2018. RMA will consider these comments and make changes to the rule if warranted.
