You may select any index provided in the Special Provisions; however, the selected index interval(s) cannot contain any month in more than one index interval. For example: If you select April - June Index Interval, which includes the months of April, May, and June, you cannot select any other interval offered that contains any of these same months. In this example (all intervals are offered in the county) you are not allowed to insure acreage in February - April Index Interval, March - May Index Interval, May - July Index Interval, or June - August Interval Index because each of these intervals contains one of the months included in the April - June Index Interval.

\*If you cannot obtain a FSA farm serial number, FSA tract number, and FSA field number, you must provide supporting documentation from FSA, a legal description, and latitude and longitude of all the non-contiguous acreage insured.
